# Komarudin
## Fullstack Web Developer and Operator Machine Lasercut

Professional Summary

Junior programmer with more than 2 years of experience using the Laravel framework, where previously I was just a web developer using WordPress, and blogger, and now I am starting my career in PHP, Javascript, and Node JS web programming using frameworks namely Laravel, VueJS, HAPI, and Express. I enjoy learning new things in programming. Currently, I am taking several Web Developer classes, one of which is "Dicoding Indonesia". I have expertise in the design, installation, testing, and maintenance of web systems with the Software Development Life Cycle (SDLC). In other fields, I can also operate laser-cutting machines

## Experience

### Fullstack Web Developer at PT Target Kelola Securindo, Jakarta
AUGUST 2021 — MAY 2022

- Create a new web design using the Laravel framework and bootstrap css
- Supports IT needs for all management and directors
